Dear Mother and Father
I was so glad to get
father's second letter which
came through perfectly but
sorry you worried you told
me not to cable of course
out cheaply in New York
papers that the Roma landed
on time because the Prince
and God of Rome were on -
We had to wait over here
an extra two days because
I could not hear from my
passage back - I now
have it on the Homeris for
Aug 29 - just leaving for the
Dalmatian Coast (see National
Geographic two months back)
We thought it would be joyous
to go to Greece and got all
excited in looking it up - the
American consul said there
was a little revolution on
fomented by Russia - that
if Russia thought it wasn't
much of a revolution Russia

would stop financing it but
if it promised to be a good
revolution it might go on longer.
I wanted to get in on a first-
class revolution but he said
she knew how it was that they
might leave us on the border
for days. so we gave it up.
The consul says it's very dis-
enchanted anyway - that the
but Greek news are in state -
it is tragic to see Hungary
with the women in mourning for
Hungary until it is noted
a man with is in the gorgeous
parliament nearly wept when
he would point to picture
of great mountains & castles
and say "Now in Czechoslovakia -
Now in Yugoslavia -
Now in Rumania - they are
calling the train -
Much love
Zsuzsanna

Dear Mother and Father

I was so glad to get fathers second letter which came through perfectly but sorry you worries. You told me not to cable. It came out clearly in New York papers that the Roma landed on time because the Prince and [illegible] of Rome were on.

We had to wait over here an extra two days because I could not head from my passage back. I now have it on the Homeris for Aug 29.

We are just leaving for the Dalmation Coast (see National Geographic two months back).

We though it would be gorgeous to fo to Greece and got all excited in looking it up. The American

consul said there was a little revolution on fomented by Russia. That if Russia thought it wasn't much of a revolution Russia would stay financing it but if it promised to be a good revolution it might go on forever. I wanted to get in on a first class revolution but Lois paid she knew how it was that they might leave us on the border for days so we gave it up. The consul says its very disenchanting anyway. That the best Greek veins are in Italy.

It is tragic to see Hungary with the women in Mourning for Hungarian until it is [illegible]

A man with us in the gorgeous parlement nearly wept when he would point to pictures of great mountains and castles and say "Now in Czecho Slovikia. Now in Yugo-Slavia, Now in Romania." They are called the train.

Much love

Eleanor
