Here we are! In office only 118  
 days—and hell's to play! G. C.

Hang it here go U. S. bonds down  
 to 96. Call a cab and let me off to  
 Buzzard's Bay.

Stam go the doors of the Cranberry  
 & mines, and out go the fires of the  
 Cranberry Iron Furnace. There  
 seems to be no reason to suspect that  
 Cleveland's administration will get  
 up a boom.

The name of Judge S. G. Whittle,  
 of the Danville circuit, is prominent  
 in connection with the  
 Supreme court bench. Judge Whittle  
 is a nephew of Bishop Whittle and  
 is regarded as one of the best judges  
 in the state.

According to the Roanoke Record  
 the name of Hoge Tyler will be pre-  
 sented to the State Democratic Con-  
 vention for the gubernatorial nomi-  
 nation by ex Judge Waller R. Staples  
 and seconding speeches will be made  
 by Homes Conrad, Joe Wisor, and  
 others.

The O'Ferrall state organization,  
 through its chairman, J. Frank East,  
 of Norfolk, and its secretary, E. L. C.  
 Scott, of Ashland, have issued an ad-  
 dress to the demoburats of Virginia,  
 giving in condensed form their record  
 of Hon Charles T. O'Ferrall and his  
 claims upon the democratic gubernatorial  
 nomination.

"But the difficulty is that if Con-  
 gress does not act wisely when called  
 together it would greatly aggravate  
 the situation and strain and probably  
 precipitate an awful and general  
 panic."—A. K. McClure's letter to  
 Bechoin.

In other words the Nation has an  
 Executive bull in its China shop,  
 and her Congress of cranks are more  
 dangerous than her present financial  
 panic. We have sown the wind and  
 here we are with a whirlwind on our  
 hands. During Harrison's adminis-  
 tration the country had prosperity.  
 The Sherman silver law was in full  
 force and yet everything moved  
 beautifully. Banks were loaning  
 money, property brought good prices,  
 the great industries of the country  
 were in full blast, wages were high  
 and business was under full sail.  
 Poor, weak human nature was intox-  
 icated with happiness and clamored  
 for a change. It wanted the earth  
 with a few stars thrown in for good  
 count. The cranks got together at  
 Chicago, adopted a platform of revolu-  
 tion, put up a financial parvenu  
 for President and announced on a  
 thousand bugles the advent of the  
 millennium. The result is chaos.  
 The money of the country was to be  
 defaced and its revenue system re-  
 versed. Free trade and shipplasters  
 were resurrected and only one  
 thing seemed lacking to complete the  
 popular lunacy—to wit, Slavery! Is  
 it any wonder that on the 11th day  
 of this new administration this in-  
 toxicated monarch should from his  
 soaring perch the earth and exclaim:

"Whereas the distrust and apprehen-  
 sion concerning the financial situa-  
 tion which pervade all business  
 circles have already caused great loss  
 and damage to our people, and threaten  
 to cripple our merchants, stop the  
 wheels of manufacture, bring distress  
 and privation to our farmers and  
 withhold from our workingmen the  
 wage of labor."

"This is truly an agonizing wail. It  
 means that as soon as the recent  
 madness had resulted in the seizure  
 of the nicely balanced machinery  
 of the government, and proclamation  
 made that it should be taken apart  
 and rearranged by a lot of tinkers,  
 the business organization of the  
 country took fright. An awful and  
 costly reckoning confronts these wild  
 agitators. The frantic accusation  
 that the Sherman silver law did it is  
 wholly absurd and unsatisfactory.  
 Gentlemen, you found the Sherman  
 law in full and easy force, and under  
 it U. S. bonds were at a premium, the  
 policy of protection was working  
 rapidly our financial independence of  
 Europe; manufacturers were so active  
 and labor so profitable that mankind  
 were amazed. Our currency was the  
 wonder of the world. And the very  
 threat that your newly acquired  
 power would be used to reverse all  
 this has brought this present cyclone.  
 Your August Congress will not be

allowed to dodge the issue. If even  
 it should get itself together sufficient-  
 ly to repeal the Sherman silver law,  
 that will do no good, so long as you  
 propose to go ahead and rip up pro-  
 tection and then compel us to buy of  
 Europe and continue to ship more  
 gold to pay with. Your remedy is  
 not to call your heterogeneous Con-  
 gress in extra session, but to throw  
 tip the whole sponge, by eviling the  
 REPUBLICAN PARTY INTO EXTRA  
 SESSION.

**THE COST OF DEMOCRATIC  
 CONTROL.**

The accession of the Democratic  
 party to power in both the executive  
 and legislative branches of the na-  
 tional government, is distinctly and  
 solely responsible for the decline of  
 more than one billion dollars in val-  
 ues of American personal property  
 since the election of November, 1892.  
 That is the lesson, from which  
 there is no escape, of which there can  
 be no denial, of the detailed state-  
 ment of the fall in the market price  
 of stocks and bonds, which was pub-  
 lished in the Press of Saturday. Gold  
 facts and figures show beyond ques-  
 tion that not the Sherman law, but  
 the want of confidence engendered  
 by the uncertainty as to what the  
 Democratic Congress and adminis-  
 tration may do with the tariff and the  
 currency, has caused this loss to the  
 nation's wealth so tremendous as to  
 be inconceivable and exceeding the  
 entire sum of currency in circulation  
 in the United States. The shrinkage  
 in values did not result from the  
 Sherman law. On the contrary, with  
 that act in full operation, and even  
 after the last Democratic Congress  
 had absolutely refused to repeal it  
 unless unlimited free coinage of sil-  
 ver were substituted, the high stand-  
 ard of values was maintained, the  
 balance of trade continued in our  
 favor, confidence was unimpaired and  
 the money market met every demand  
 with ease. When the result of the election  
 became known, a wave of distrust be-  
 gan which grew into such tidal pro-  
 portions after the inauguration of  
 Grover Cleveland that it caused val-  
 ues to shrink half a billion of dollars  
 in three months. Such is the record,  
 which does not include the colossal  
 losses in the unlisted stocks of lim-  
 ited corporations, manufacturing com-  
 panies and private firms.

Without confidence, the business  
 of the country, 97 per cent. of which  
 is transacted on credit, has inevitably  
 dwindled in volume, decreased in  
 profit and become embarrassed by  
 the shackles of financial stringency.  
 This want of confidence, beginning  
 after the result of the election was  
 known, became more alarmingly po-  
 tent with every week that revealed  
 an Administration at Washington  
 without a policy and the shadow of  
 a Congress elected upon a section of  
 the Confederate Constitution, the  
 potentialities of whose incapacity for  
 mischief no inquiry could gauge.  
 The possibility of the repeal of the  
 silver purchasing act brings no relief,  
 because with that is involving the  
 probability of the removal of the  
 tax upon State bank issues. Add  
 to the threat of wildcat currency the  
 framing of new customs schedules on  
 a strictly revenue basis, and the  
 cause of the prevailing uncertainty  
 and apprehension is manifest.—N. Y.  
 Press.

**The Populists Want to Im-  
 peach Cleveland.**

COLUMBUS, O., July 5.—The Peo-  
 ple's party of Ohio met in convention  
 here yesterday and nominated a full  
 State ticket.  
 Just before adjournment a delegate  
 created a sensation by introducing a  
 resolution calling upon Congress to  
 impeach President Cleveland on the  
 ground of high treason, in that he,  
 as a representative of the British  
 money power, is a traitor to this  
 country. The resolution was received  
 with wild cheers and was adopted  
 with unanimous consent.

**Western Kansas Threatened  
 With Ruin.**

Topeka, Kan., July 5.—Unless the  
 people of Western Kansas render aid  
 in the very near future that entire  
 section will be practically depopu-  
 lated. Yesterday the county commis-  
 sioners of Wichita, Lane, Scott,  
 Greeley and other counties met at  
 Leoti and issued a call for a conven-  
 tion at some central point, at which  
 an appeal is to be made to Governor  
 Lewelling to immediately call the  
 legislature together to appropriate  
 funds for provisions, feed and wheat.  
 "Thousands of people will be forced  
 to leave that section unless aid is  
 given them. Many in the valley have  
 abandoned their claims and gone to  
 Oklahoma.

Jno. W. Richardson & Co. A MURDER MYSTERY.

That is Probably Cleared up by a Convict Who Murdered Goshorn.

BASTON, Tenn., July 5.—A Virginia convict is said to have confessed that he was a member of a gang of moonshiners and counterfeiters, who murdered John G. Goshorn, whose dead body was found in a cave six miles from Bristol, eighteen months ago. The disappearance of Goshorn, and his subsequent death is still fresh in the memory of newspaper readers all over the country. It was thought at the time that he committed suicide. He was a life insurance agent and hailed from Charleston, W. Va. The story that the convict tells is quite sensational.

Goshorn, in hunting silver in the mountains came upon them in a cave. They intended to drug him and carry him to a cave in another part of the mountains, so that when he recovered he could not tell from whence he came. The young doctor in the gang gave him an overdose of the narcotic and he died. If this story is true, a mystery in connection with his death is cleared up.

**SCHOOL AND CHURCH.**

One of Chicago's Lutheran churches has two thousand people and is crowded every Sunday.

During the last four years seventy-five English university men have become missionaries.

There are 1,817 candidates for the ministry in the Presbyterian Church in the United States this year, more than twice as many as ten years ago.

Rev. A. C. Bowles says that among Quakers there are three hundred and fifty male ministers more than in any other denomination.

Bishop Warren, of the Methodist Episcopal church, has given \$3,300 as the nucleus of the endowment of a professorship of the Bible in the University of Denver.

Dr. Cross, of the Free Church of Scotland Missions on Lake Nyassa, Africa, has upon the roll of his school the names of three hundred children rescued from slavery.

There are forty thousand women studying in the various colleges in America. And yet it is only twenty-five years since the first college in the field was opened to women.

A Mary Brigham Memorial College is to be built by the New York alumni of Mount Holyoke college. The cost of the building is to be \$25,000, and \$50,000 has already been subscribed.

The finest mission building in the world will soon be completed in New York, the Temple of Rescue. Mrs. W. Vanderbilt is erecting it at a cost of \$25,000, on ground which her son Cornelius bought for \$75,000.

The ministry of education in Russia proposes to make primary education compulsory in each village as a safe and sound public school. Free circulating libraries will be established in all such village schools under the management and supervision of the clergy.

According to an educational journal the number of illiterate persons in Russia, Siberia, Romania and Bulgaria forms 80 per cent. of the population; in Spain, 68; Italy, 48; Hungary, 43; Austria, 30; Ireland, 21; France and Belgium, 15; Holland, 10; United States, 8; Scotland, 7; Switzerland, 2 1/2, and in the greater part of Germany only 1 per cent.

The first meeting of the Icelandic synod of the Lutheran church was held a few weeks since at Winnipeg, Manitoba, Canada. The synod has twenty-four congregations and over five thousand souls. Several new congregations in Minnesota joined this year. A mission has been started in Utah, where there are a number of Icelanders.

A black prince is numbered among the students of the Nicholas Latin school at Lewiston, Me. He ran away from his home in southwestern Africa, and came to this country to obtain an education. Discarding his native name, Lomboy, he took that of Lewis P. Clinton, and his progress in study has been rapid. He pays his way by lecturing.

A decision has been rendered in the long-contested equity suit between the liberal and radical factions of the United Brethren of Christ, arising out of the adoption of a new constitution at the general conference in 1889. Judge Stewart gives his decision in favor of the liberal party, affirming that their course has been entirely legal, and that they have a right to hold the property.

**SIGNING THE NAME.**

A Word of Advice to Young Ladies about Letters. We can see a young girl in writing a note signs herself "Miss Jane Smith," you will say, instead of, as she should, Jane Smith. It is not her fault that she has perhaps never had the opportunity of learning that no person, man or woman, should ever sign a letter with any title prefixed. The greatest of men and women sign their letters with the utmost simplicity. Mr. Lowell, with a number of honorary titles conferred on him by the greatest universities and learned societies of the world, would sign simply James Russell Lowell. Rev. Dr. Brooks, also, with several honorary titles conferred on him, and so soon to be also a right reverend and the bishop of Massachusetts, would sign himself, only, Phillips Brooks. When a young woman in business employment has occasion to write a note and signs herself "Miss Jones," or "Miss Mattie Brown," the recipient always wants to tell her, in a friendly way, to sign her name only, as that alone is well-bred. In the case of a married woman she may sometimes, when necessary to give her title of "Mrs." put it in parenthesis, as (Mrs.) Jane Hunter Wilson, but never otherwise. To write a thoroughly well-bred note or letter is always a most desirable thing, as it marks the difference between good breeding and the lack of its opportunities, and a little care will enable one to acquire polite and accepted forms.—Boston Budget.

**Her Mother Knew.**

Mother—And so you engaged yourself to that young man at Idlewild Springs, did you?

Daughter (sheepishly)—Yes, ma, I promised to become his wife.

It was on a beautiful moonlight evening in June.

"Why, yes, ma; how did you know?"

"And the hotel band was playing a delightful waltz by Strauss."

"Why, yes. Who told you?"

"And you two were in the arbor on the lawn?"

"Yes."

"And the fountain sparkled in the moonlight, and made music which seemed like a fairy echo to the sweet melody which floated out from the distant orchestra."

"Yes, How?"

"And the lake with its fleet of pretty boats gliding about the softly illuminated waters seemed like a bit of lovely Venice dreaming at your feet?"

"Yes, yes. But how do you know all this?"

"I knew it must have been under some such combination of circumstances that he proposed, or you would never have said 'yes' to such an ardent-pated phreosomop as that."—N. Y. Weekly.

**Baldness.**

It has been frequently asserted that a prolific cause of baldness among men is their habit of wearing hats in their offices and other places of business. Lately some one has added to this indictment their other habit of constant and close cutting of the hair. It is with the first of these charged evils that women have to do. Hairdressers are beginning to attribute the thinness and falling out of women's hair, which is, according to them (the hairdressers), on the increase, to the fashion of continuous hat wearing. Many women, club women, fashionable women, charitable women, wear their bonnets hours at a time, and for days together. Shopping women are lunched often from 9 to 6, indeed, in these days of inexorable duty, there is hardly any class of the sisterhood which does not pass much time with covered heads.—N. Y. Times.

**No Actresses in Japan.**

Women do not appear on the Japanese stage, female parts being played by men, who often make these roles their specialty, cultivating and using their voices always in a thin, high falsetto. The make-up, the voice, gait, action and manner of some of these actors are wonderful, and Genoske, the greatest impersonator of female characters, when dressed for the part of some noble heroine, is an ideal beauty of the delicate aristocratic type, says a writer in the Cosmopolitan. Outside the great theaters, in plays and side-show entertainments, that may be compared with our dime museums, woman is occasionally found on the stage.

**Sulphate of Ammonia from Coal.**

It has been estimated that one ton of coal gives enough ammonia to furnish about thirty pounds of crude sulphate, the present value of which is about \$90 per ton, and there being 10,000,000 tons of coal annually distilled for gas, no less than 138,929 tons of sulphate of the money value of over \$3,000,000 are produced.

**Matrimonial Intelligence.**

Gus De Smith—You say Miss Esmeralda Longorfin is engaged?

Gilchrist—Yes, she is engaged.

"Well, she has had experience in the business. I believe she has been engaged to every blank fool in the town."

"Who has she picked up now?"

"Me."—Texas Siftings.

A countryman who witnessed Jefferson's "Rip Van Winkle," being asked how he liked the acting, answered: "Well, I didn't see any acting. I saw a shiftless Dutchman that got drunk off into the mountains, but he was such a good-natured feller I liked him first rate."—Utica Herald.

**Wearing appears to have been practiced in China more than a thousand years before it was known in Europe or Asia. The Egyptians ascribed the art to Isis, Greeks to Minerva and the Peruvians to the wife of Manco Capac. Our Saviour's vest or coat had not any seam, being woven from the top throughout in one whole piece. The print of a frame for weaving such a vest may be seen in Calmet's "Dictionary" under the word vestments.**
