Dear Mother and Father
I can't figure out yet
why I have not heard
from Miss Ivan Warby -
Maybe some of your letters
which I did not get
gave a better address for
her - We reached here Friday
night coming in at the
Wilson Station across
from which is a huge
statue of Woodrow in golf
with the famous sign
for democracy on it -
Czechoslovakia seems
to be the only country
that got all they wanted
out of war & they feel
they have a great deal
of Wilson - I can't tell
whether Masaryk and
Benish their great statesman
were just so much
smarter than the others
that they could take Wilson

fished him out but two
the - they took out his
tongue & shave it in a
General hundred
later he was canonized
and good Catholics believe
his tongue is still alive
because that was the
miracle - so all around
are little St John
republicans with their
fingers pointed to their
mouths

Y M took us to church
and at night we went
to dinner with the Y
M student secretary & his
wife was a friend of
Louise's

I bought me a lovely
scarf ring with Aunt
May's birthday
The Y M helped up my
Polish visa & we had
to stay an extra day - has
to out trying to get it now.
I wanted to start without

it but we found that we
hit the border at 9:30 PM
and that its a busy hour -
I wanted to get to mail
and to visit her, to
save money - first her
Max Donald recommended
a hotel here which is
very cheap

Some light diamonds
my glass were caught
in Warsaw and Thursday
and we feared they
would be suspicious
of people without visas
to get almost train time
& has not here - there are
a gun was almost
washed away by a flood.

all love

Dear Mother and Father

I cant figure yet why I have not heard from Miss Evans Darley. Maybe some of your letters which I did not get gave a better address for her.

We reached here Friday night coming in at the Wilson station across from which is a huge statue of Woodrow in gold with the famous "safe for democracy" on it, Checo-Slovakia seems to be the only country that got all they wanted out of war and they fell they owe a great deal of Wilson. I cant tell whether [illegible] and [illegible] their great statesman were just so much smarted than the others that they could take Wilsons utterances and use them to their ends or whether Wilson was partial to them. [illegible] was elected president when he was in America and was made pres for [illegible] for saving the country.

Pragues history only begins 1000 B.C. They have some ruins that old though most of the real buildings dont begin before 400 A.D. The oldest synagogue we went in yesterday 1500 years old. They still make the women sit separately.

We went to the place where they threw the noblemen out the window and this started the 30 yrs war. Another good spot is the bridge from which a priest was thrown because he would not tell the jealous kind the secrets of the queens confessional. The good Catholic fished him out but too late. They took out his tongue and have it in a jug. Several hundred yrs later he was [illegible] and good Catholics believe his tongue is still alive because that was the miracle. So all around are little St. John [illegible] with their fingers pointed to their mouth.

Fri Mr. [illegible] of the YM took us to [illegible] and at night we went to dinner with the YM student secretary. His wife was a friend of Louises.

I bought me a lovely [illegible] ring with Aunt May's birthday.

The YM balled up my Polish visa and we had to stay an extra day. Lois is out trying to get it now.

I wanted to start without it but we found that we hit the border at 9, 30PM and that its a tiny town. I wanted to get to mail and to [illegible] Lois to save money. But Lois May Donald recommended a [illegible] here which is very cheap.

Some [illegible] diamond smugglers were caught in Warsaw Thursday and we feared they would be suspicious of people without visas.

Its almost train time and Lois no here. [illegible] [illegible] [illegible] [illegible] was almost washed away by a flood.

All love
Eleanor
