

June 14

Dear Mother and Father
I have received mail
from N.Y. mailed as late
as June 1 and not once
from home except father
on the day I sailed. Mail
will be harder to get after
leave here so it will be
much worse.
Yesterday we took a trip down
the Danube - the whole conference
on one boat then up to
an old castle destroyed
by Austria 150 yrs ago
because they feared they would
use it as fortresses.
A German school teacher
told me that for 1 whole year
they did not have any children
starting in the school at all -
but now back to normal -
the Scandinavians
say we rely on upmanance
whereas they see that
nothing but transcendence
opens any life.

June 14

Dear Mother and Father

I have received mail from N.Y. Mailed as late as June 1 and not one from home except fathers on the day I sailed. Mail will be harder to get after I leave here so it will be much worse.

Yesterday we took a trip down the Danube. The whole conference on one boat. Then up to an old castle destroyed by Austria 150 yrs ago because they feared they would use it as fortress.

A German school teacher told me that for 1 whole year they did not have any children started in the school at all, but now back to normal.

The Scandinavians say we rely on [illegible] whereas they see that nothing but transcendence offers any hope.
