Cora Lee Robinson.

Cora Lee Robinson was the daughter of Oliver and Magdelene Robinson, and was born in Marion on the 29th day of July, 1864, died Sept. 14th, 1927. She was therefore 63 years, 1 month and 15 days of age.

She professed religion at the Newman's school house and joined the M. E. church South. Her entire life was characterized by deep piety and faith in Christ. She was married to John Henry Robinson on the 2nd day of Jan., 1889, who preceded her to the grave 14 years ago, and to this union eight children were born, two having preceded her in infancy. Those who survive are the following: Walter, of Akron, Ohio, Charlie of Barberton, Ohio, Mrs. Paul Irwin, Marysville, Tenn., Mrs. Henry Waldon, Berwind, West Va., Conley Robinson and Maggie of Marion, also one sister Mrs. J. W. Woody, of Marion, and two brothers W. S. and P. S. Robinson, of Marion, and a host of relatives and friends.

"We'll meet again," how sweet the word, How soothing is its sound; Like strains of far-off music heard, On some enchanted ground.

"We'll meet again," the true heart speaks, When dearest ones depart; And in the pleasing prospect seeks, Balm for the bleeding heart.

On Heaven's serene and endless rest Secure from care and pain; There in the mansions of the blest, We'll surely meet again.

A NIECE.

OVER-CONFIDENCE FATAL DURING BIG DOUBLE VOTE OFFER WITH ONLY ONE MORE WEEK TO WORK

Second Payment Subscriptions Will Play Important Part in Deciding the Winners of the Best Prizes—This Week's Offer will Prove a "Stepping-Stone" to Those Who Demonstrate Their Ability Now.

"They are going to finish strong." That is the conclusion of the Managers of the Marion Democrat and Smyth County News-Salemanship Club, in which nearly \$3,000 in prizes, etc., will be distributed shortly.

Here's why they think so: No. 1. Reports from towns outside of Marion show that the majority of the members—some of them who a couple of weeks ago were far down in the list, are today among the leaders.

No. 2. With only one week more after this of the wonderful race every member is going over their territory again securing "Second Payments" and new subscriptions with a firm determination to win.

DOUBLE VOTES.

That isn't all either. Twice the regular schedule of votes will be allowed on all subscriptions turned in during this week from Monday, October 3rd, to Saturday night, October 8th. This means that twice the number of votes that are allowed according to the regular schedule will be credited and it does not mean that twice as many votes will be given this week as has been given heretofore.

SECOND PAYMENTS COUNT.

A lucrative source of votes is coming from members following the "Second Payment Plan" by going over the field again. Quite a number of small subscriptions were taken in during earlier periods of the club and the rules provide that where a member secures a "second payment" subscription, this "second payment" counts to apply on the extra vote offer under which the original subscription was turned in, in order to get credit for the additional votes. Members are making great strides along this line and are not letting grass grow under their feet during this week's offer.

UP TO SIX YEARS.

Subscriptions to the NEWS or DEMOCRAT may be taken up to six years. Where a 12 months subscription has already been made to the NEWS or DEMOCRAT the members receive 1,500 votes. The difference of 23,500 votes will be allowed upon receipt of the additional payment. The same principle applies to yearly subscriptions extended to two years.

Just a few of the above mentioned six year subscriptions will run into numbers of \$24 clubs and will net a member millions of votes, and votes will win! Call on your friends and get them to give you a big "Second Payment" subscription.

Those who are assuming the attitude (there are a very few of them) of having enough votes ahead, had better step lively, as the late starters are coming to the front in an amazing manner. Taking a rest is all right in its place, but it is very dangerous at this critical stage of the club and the most certain thing of all is that the value of the prizes warrant such keen competition and great effort being put forth to acquire them that one must be always on the alert to protect such good work as has been done up to this time. Those who think that they can win a prize valued at \$950.00, or \$721.00 or \$300.00 without supreme effort will awaken to the fact that while they were under-estimating the full pulling power of the prizes, the more energetic ones were at work securing subscriptions, and when the votes are counted—the workers will be the winners. Up to the present time it is anybody's race and a spurt this week in getting votes will change the tide of battle in favor of any one of them. Get busy—everybody.

Nebo School Notes.

As it was the last week in the month we have been very busy preparing for tests. We were so surprised to find how small a portion of the year's course we had covered and how little we knew of even that. Then we had a "clean up day," and washed our windows. The boys went at them first, and then the girls; but they are still steady, though you can see clearly in spaces. We are going to oil the floor and polish the stove as soon as we can get the oil and polish.

Our ball team is not yet fully organized but we have begun playing. We held our first League meeting last Friday afternoon, the primary grades giving the program. It was a nice little program, and we all enjoyed it very much. We had one visitor, Mrs. J. T. Crigger.

We have a new library. It is mighty nice and handy, there are 142 volumes. There are books suitable for all grades, and there are some which father and mother will enjoy reading. We thank our teachers of last year very much and wish them to know how greatly we appreciate it. We want to keep it together and clean because it was bought by the school.

Mrs. Y. F. Hancock died Sunday night at twelve o'clock. She was laid to rest in Zion cemetery Tuesday at three o'clock. Her funeral was attended by a large crowd of sorrowing relatives and friends. The services were conducted by Preacher Walls. The pall-bearers were her grandsons and nephews, the flower girls her grand-daughters and nieces. There were many beautiful flowers. We offer our sincerest sympathy to the bereaved relatives

and friends. Those attending the funeral from a distance were Mr. H. C. Bales, of Kirkwood, Ill.; C. L. Hancock and family, of Emory Virginia.

After the death of her grandmother, Silvia Catron returned to her father's in Marion. Her classmates and teacher are sorry to lose her.

Mr. Jackson called in his neighbors to help fill the silo on Dr. Perry's farm. They have been working busily all the week. There have been from twelve to twenty men at work, and they have cut about twenty-five acres of corn. We can hear the feed cutter plainly. The other day it blew up, the repairs will cost heavily. However they borrowed a cutter and will finish the work soon.

Messrs. Francis and Thomas Cox are returning to Maryland. The stork visited the home of Mr. and Mrs. Marco Holston leaving a fine baby girl.

Mr. Bertie Smith has been sick, but his friends think he is better now.

Hon. Bascum Slemp

In Marion.

Hon. C. Bascum Slemp accompanied by his cousin Mr. Wise Slemp, took dinner Sunday at the General Francis Marion hotel. They were motoring from Big Stone Gap, en route to Washington, D. C. In speaking of the political situation he did not express his preference for any one of the men prominently spoken of for the Republican nomination, but seemed to think Mr. Hoover would prove a strong contender for the nomination, and would make a formidable candidate. While here he met several personal and political friends. He left about 8 o'clock for Roanoke where he spent the night. He spoke in praise of Smyth County and especially of Marion's handsome new hotel.

Auxiliary Rally Day.

The Auxiliary Rally Day will be held in connection with the monthly meeting of the Woman's Auxiliary of the Presbyterian church. This meeting will be held in the Sunday School room, on Wednesday, October 12th, at 3 o'clock.

Invitations will be sent to all the women of the church. An interesting program has been arranged, so please make special effort to come.

Annual Conference.

The forty-eight session of the East Tennessee Annual Conference and Laymen's Association Conference of the Methodist Episcopal Church, colored, commenced Tuesday afternoon with the arrival and registration of visiting clergymen, laymen and delegates from all sections of the conference.

The church officials prepared for a large crowd and as was expected there were fully three hundred persons attending this conference. The clergymen and delegates were assigned to home where they will remain during the entire conference which will last the remainder of the week.

The conference formally opened with a missionary sermon on Tuesday, and from that time services and business meetings have been conducted morning, afternoon and night. Bishop M. W. Clair, of Covington, Kentucky, arrived Wednesday morning, and the afternoon service was conducted by him. At this meeting there was conducted the celebration of the Holy Sacrament, roll call, general organization, addresses of welcome in behalf of Marion and the Mt. Pleasant church, where the services are being held, and the response by Dr. J. W. Manning, and the evening session at 8 P. M., was devoted to the Educational hour.

Rev. T. C. Frazier, pastor of the Marion Mt. Pleasant church, and his members have put forth an organized effort to make this one of the most successful conferences ever held.

Special programs have been arranged for each meeting and several prominent speakers have expressed themselves in addresses during the session of the conference.

Hi-Y Notes.

President—Maury Hurt. Vice-President—Palmer Pierce. Secretary—Everette Repass. Treasurer—Sexton Hawkins.

CLINICS BEING HELD IN THE COUNTY TO STAMP OUT THE DREADED DYPHTHERIA.

Smyth county is now on the eve of the biggest clinic ever held. It is a most worth while undertaking to stamp out diphtheria. Our health authorities are to be congratulated on this work. The only reason it will not be a complete success will be account of the non-cooperation by parents. Fifty cents invested is worth while to assure you or your child being free from contracting the dreaded disease.

*Read what the State Health authorities have to say on the subject:

A LIFE SAVING BOON.

"Ask me another" is a popular catch-phrase that is causing the dissemination of useful information in rapid-fire fashion. Let us give it practical application.

What is the most important life-saving discovery of the twentieth century? It is the discovery of the X-ray with its diagnostic and healing properties? No. Is it the discovery of radium with its wonder working power? No. Is it the discovery of insulin that splendid remedy the hitherto hopeless diabetes? The answer still is, No.

While each of these remedial agents might be considered active competitors for first place among the newer life-saving agencies discovered by scientific research, yet, each must give place to toxin-antitoxin, the great preventer of diphtheria. Diphtheria is a disease that our parents used to call membranous croup and is an infant-killing scourge.

X-ray, radium and insulin are remedies that may or may not cure people when they are suffering from certain forms of sickness from which elderly people are mostly subject. Toxin-antitoxin is a preparation which if given in good time will prevent a disease that suddenly attacks the tender babe and oftentimes cuts off its breath before the doctor can arrive and apply a cure.

This preventive serum is the greatest potential life saver since vaccine against small-pox was discovered. Toxin-antitoxin gives protection against diphtheria during the danger period of childhood and in all probability for life, and is administered in three injections under the skin. The injections are given one week apart and hurt no more than a pin prick. Uncomfortable after effects are rarely experienced.

If the people generally will protect their children with toxin-antitoxin diphtheria will be entirely wiped out. Parents should consult the family physician and have him administer toxin-antitoxin to every young child in the household.

Prevention is better than cure and a complete family circle better than vacant places at the fireside plus funeral expenses.

DIPHTHERIA PREVENTION CAMPAIGN.

The State Board of Health of Virginia believes that it is practicable to rid the State of diphtheria that kills so many infants yearly and in that belief has entered upon a State-wide co-operative campaign to vaccinate every susceptible child against this death dealing disease.

This campaign began January the first of this year and so far, with the help of the local boards of health the local medical profession, the school authorities, the ministers and other local organizations, successful clinics for the administration of toxin-antitoxin have been held in seventy-five counties and through them approximately 100,000 Virginia children have been protected against diphtheria, there are still several

hundred thousand more children in the State who need this protection.

Smyth county should take advantage of State assistance in this protective effort to save life. There were many deaths from this disease in this County in the last few years, all wholly unnecessary. Grayson and Dickinson counties nearby have held successful toxin-antitoxin clinics under State Board of Health auspices, why should not we?

The physicians who see diphtheria cases oftentimes too late and are willing to give their services in a county-wide effort to prevent any more of them should be encouraged by full co-operation on the part of the people.

DOCTORS SHOW A FINE SPIRIT. DIPHTHERIA PREVENTION CLINICS TO BE HELD.

The physicians of this County, with the help of the school authorities, the ministers and other organizations, have determined to do their utmost to prevent the occurrence of diphtheria in this county. Smyth County under the auspices of the Local Board of Health is to have a series of clinics for the administration of toxin-antitoxin, beginning on the 3rd of October. Be sure to bring your child on the first day. Clinics will begin promptly on hours mentioned. Schedules have been distributed throughout the County giving the places and dates of these clinics, by Mr. Ward, the County Health Officer. Don't fail to have your children receive the treatment.

S. S. Association. Annual Conference.

The Annual meeting of the Marion District Sunday School Association was held Sunday afternoon in the Attoaway Lutheran church. Mr. Haynes Wolfe, the President, conducted the meeting and called upon Mr. Kenneth Killinger to conduct the devotional exercises, after the opening song.

Mrs. J. P. Killinger then made the address of welcome, which was responded to by Mr. L. W. Hutton. Mr. Geo. A. Collins, Superintendent of the Marion Baptist Sunday School then gave a short but stirring talk upon the value of co-operation in Sunday School work. Mr. Collins was followed by the appointment of committees on Time and Place of next meeting, Resolutions and nominations of officers.

Mr. W. R. D. Moncure then gave a strong practical talk on "Does the Sunday School pay" and gave much valuable information to show the value of this work from the smallest community organization to the most complex international organizations.

Mr. J. P. Sheffey, Superintendent of the Royal Oak Presbyterian Sunday School, then gave conclusive statements to show the value of a Superintendent who is an active worker, and the necessity for the Superintendent to be in touch with every department of the Sunday school if the full value of the Sunday school is to be gained.

Mr. W. L. Allen then presented some facts showing the importance of proper selection of teachers, the necessity for a Teachers' Training Department for a Sunday school and the necessity for a careful planning for the presentation of a lesson and the necessity of the teacher making applications of the lesson to every day living.

The general business of the meeting was then considered and the place of meeting for the next session of meeting for the next session and the motion for adjournment marked the conclusion of the meeting for this session.

The meeting was well attended there being about seventy-five persons present from the various parts of the District.

INTERESTING PROGRAMME

FOR THE FIRST DISTRICT V. F. M. C. AT PULASKI, ON TUESDAY, OCTOBER 4TH.

An interesting program is being given today for the second annual convention of Music Clubs in the First District of the Virginia Federation, which is held in Pulaski, on Tuesday, October 4th.

Registration will precede the opening session, which was called to order at 10:00 A. M., by Mrs. Marvin Copenhaver, First District Chairman. This session will be held at the Presbyterian Church, while the afternoon session will convene at 2 o'clock P. M., in the auditorium of the Jefferson School. All delegates and out-of-town visitors will be served a lunch at noon, in the Presbyterian Church, by members of the Pulaski Music Study Club.

Each of the forty-two clubs in the First District were expected to send two delegates and as many visitors as can come. All the meetings will be open to the public without charge, including the musical at five o'clock. The State President, Mrs. J. P. Buchanan, will be heard at the organ at that time.

A program of interest for juniors will be put on at the Jefferson School from three to four o'clock, by the Junior Music Club, with Mrs. Temple Painter and Miss Evelyn Finks in charge. This will include songs by the Junior Club Chorus, aesthetic dances, under the direction of Miss Gladys Lindsey, and a number by the High School Boys' quartet.

It was hoped that every club will send singers to form a district chorus to lead the singing at both sessions. The numbers to be sung are chosen from the Biennial Song Book, which was compiled for the use of the chorus at the National Convention in Chicago, in April. The Chorus of the Pulaski Music Study Club is hard at work on the chosen selections under the direction of Mrs. J. F. Tipton.

Through the courtesy of the leading music publishers there was an exhibit of music and books on musical subjects. Included in this display are publications relating to Junior Club work and Choral activities. The music to be exhibited offers the latest operettas, octave music, song collections, and promised to be of help to program chairmen.

The closing event of the Convention was a banquet at the Maple Shade Inn. Tickets for this were one dollar a plate, and included the musicale program.

In Interest of State Chamber of Commerce

Henry L. Caravati, Organization Secretary of the Virginia State Chamber of Commerce, will be the guest of honor at the regular meeting of the Kiwanis Club to be held at 7 o'clock Tuesday evening. Mr. Caravati is making a tour of Southwest Virginia for the purpose of interesting the business men of this section in the work of the State Chamber.

In discussing the program of the Virginia State Chamber of Commerce with several local business men yesterday, Mr. Caravati stated "the work of the State organization does not in any way duplicate the efforts of Southwestern Virginia, Inc. The larger organization is to the state what the smaller one is to the particular section."

The editor feels that the Virginia State Chamber of Commerce has certainly earned its right of existence but it can only live through the liberality of its members. It would not be fair to refer to the membership fee as a donation. Actually it is an investment in all-Virginia. This paper feels that it can state without fear of contradiction that the State Chamber of Commerce has done more to re-establish and re-create Virginia commercially and industrially than all other organizations of its kind combined. By this is meant that the state body has done more to turn the eyes of the nation toward Virginia and restore her to her rightful place as a great force in the sisterhood of states. Every substantial business man and every progressive firm in this section of the Old Dominion should join the State Chamber of Commerce and become a part of the organization. It is a great, great opportunity to have a direct part in the making of the new Virginia on the solid foundation of the old. Join the State Chamber of Commerce and support it with a membership. It is casting bread on the waters that will come back again when it is needed.

Red Cross Meeting.

Watch Your Kidneys!

To Be Well See That They Function Properly.

YOUR kidneys! Do you realize what an important part they play in your health and length of life? Your kidneys are the blood filters. When they act sluggishly, waste poisons remain in the blood and make one tired and drowsy, with often nagging backache, annoying headache and dizzy spells. That the kidneys are not acting right is often shown by scanty or burning excretions. Assist the kidneys with a stimulant diuretic. Use **Doan's Pills**. Doan's are endorsed the country over. AUGUST BEATS THEM ALL.

The collection of \$764,935.16 gasoline tax for the month of August by the Director of the Division of Motor Vehicles is the largest tax collected in any one month since the law became effective. The August tax exceeded that for July by \$40,000, or about 5 1/2 per cent, the July tax having been in round figures \$725,000. The August tax of 1926 of \$642,000 was exceeded by the August tax of 1927 by \$123,000, or about 19 per cent.

A comparative statement of the last six months of 1925 and the first six months of 1926, against the last six months of 1926 and the first six months of 1927 shows an increase in the tax of over \$2,000,000. In the period of 1925-6 there was collected \$4,750,000 in the period of 1926-7, nearly \$7,000,000 was collected.

There has already been collected for the first eight months of the year 1927 over \$4,750,000 from this tax. In other words in the eight months of 1927 there has been collected more than was collected in the twelve months of 1925-26.

The gasoline tax is now one of the liveliest issues with every state in the Union except two, New York and Massachusetts, and by direction of the Governor, the Director of the Division of Motor Vehicles will attend the meeting of the North American Gasoline Tax Conference at Columbus, Ohio, on October 3, 4, and 5, the Director of the Division of Motor Vehicles having been appointed on two of the most important committees of this Conference.

WHAT ARE THE AMENDMENTS?

In 1924 the General Assembly proposed three amendments to the Constitution, and in 1926 there was the necessary concurrence in each case, but the Assembly in 1926 failed through oversight to enact the legislation necessary to submit the proposed amendment to the people at the general election in the fall of 1926. At the extra session of 1927, the necessary legislation was enacted, as it was reasonably certain that its enactment at that session was legal, and these three amendments will be submitted to the people at the general election in November, 1927. They are as follows:

1. To amend Section 22 so as to exempt the wives and widows of veterans of the War between the States from the payment of the State poll tax as a prerequisite to the right to register or vote, the exemption being now restricted to veterans of such war.

2. To amend Section 186 so as to permit the General Assembly to make appropriations out of the State treasury payable at any time within two years and six months after the end of the session of the General Assembly at which is enacted the law authorizing the same (instead of the maximum of two years now fixed). The result of this proposal will be to permit the General Assembly to fix the appropriation year of the State from July 1 to June 30 instead of from March 1 to February 28 or 29, as at present. If the appropriation year is thus changed, the fiscal year and the appropriation year will coincide—"a consummation devoutly to be wished."

3. To amend Section 170 so as to authorize a county having a population greater than five hundred inhabitants per square mile, as shown by the United States census, to impose taxes or assessments upon abutting landowners for making and improving the walk-ways upon then existing streets, and improving and paving then existing alleys, and for either the construction, or for the use of sewers, provided that the same when imposed shall not be in excess of the peculiar benefits resulting therefrom to such abutting landowners. This amendment is designed to apply only to counties having city conditions, and it gives such counties no greater latitude than the present section gives to cities and towns. The amendment will not now apply to any county except the county of Arlington.

"Old" Dishes Made New

CRUSHED pineapple is a "ready made" fruit adaptable for a lot of dishes, especially when one is in a hurry and can't think of how to give well known dishes a different twist.

The simplest fruit cocktails suggest merely piling a cocktail or sherbet glass full of the chilled crushed Hawaiian pineapple, just as it comes from the can—and topping with a maraschino cherry. Then there are all sorts of more elaborate combinations with grapefruit, with strawberries and with a mixture of fruits including bananas. One particularly pleasing fruit cup, at this season, is made by filling cantaloupe halves with crushed pineapple.

In soups, too, pineapple has made its appearance. An expert dietitian recommends an iced mint fruit soup, using half a can of crushed pineapple, two cups of water, half a glass of mint jello and a teaspoon of arrowroot for thickening. She tops this soup off with a sprig of fresh mint.

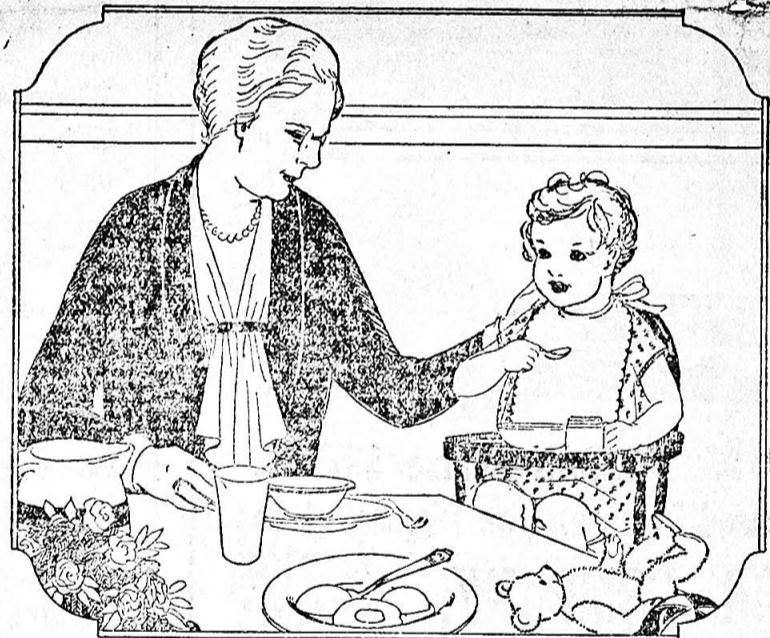

Meat dishes are also good with pineapple. There are our savory baked hams given a piquant new taste when baked with crushed pineapple, reserving some of the contents of the can for a garnish; meat loaves, whose flavors are improved by a small amount of the crushed pineapple, well drained, and any number of meat sauces

made with this popular fruit. The simplest, and perhaps the most delicious of the latter is the crushed pineapple just as it comes from the can as nearly frapped as possible. It is a good variation from applesauce and is really delightful with roast pork or lamb.

Many people, planning a fruit salad, start from pineapple as a base. A simple different salad is made by combining dates and crushed pineapple and pouring over mayonnaise. Tomatoes stuffed with crushed Hawaiian pineapple and seasoned with walnut meats makes a particularly good salad. And even our old favorite Waldorf salad becomes something new when pineapple is substituted for apple.

In desserts, crushed pineapple has found a welcome place. Its golden color seems to dress up the dessert course and its tart, yet sweet flavor is one of the best means of ending a meal. Someone devised this quick and delicious dessert: simply place a can of crushed pineapple in a bucket of ice and salt, allowing it to stand for several hours and when it is thoroughly frozen dip the can for a second in hot water. When the entire top of the can is removed the cylinder of fruit slips out unbroken, ready for slicing.

Catering to Delicate Appetites

DELICATE appetites must be tempted by foods that look and taste well and are easily digested. Heavy or highly spiced foods should be avoided and most fruits, light soups and light salads should be used instead.

Milk soups made almost entirely of milk and without the thickening usually recommended in recipe books, are especially suitable for such a diet. Potato soup is made by boiling together slices of onion and potato, mashing but not draining, and adding seasoning with salt and celery salt, and adding a can of evaporated milk. After milk is added soup should not be boiled.

To make pea soup bring to a boil a can of peas; mash, add two cupsful of vegetable strainings—from potato, onion or carrot—and a can of evaporated milk.

Chicken soup is made by cooking rice in chicken stock, seasoning, and

adding evaporated milk. New milk can be used in these soups but a much larger quantity would be required. Evaporated milk gives a richness and a creaminess that cannot be otherwise obtained unless pure cream is used, and that is beyond the average purse.

By whipping into the beaten whites of eggs, some chosen fruit such as applesauce, crushed Hawaiian pineapple, or strawberries, you will achieve a dessert that will appeal to almost any appetite, however delicate; souffles made by baking these whips in a slow oven are also tempting. These fruits should be kept on the supply shelf in the convenient canned form.

Nutritious desserts which avoid the indigestible pastry can be made by baking the filling alone: baked pumpkin custard, for instance. Make this by beating two eggs in one cup of canned pumpkin, adding sugar and a little cinnamon, stirring in a pint of milk, and baking till the center boils.

Strawberry and Pineapple Conserve

PRUNE marmalade is easily prepared. Use medium sized prunes cooked in the usual way. Cut into small pieces. To one pound of pulp, add one orange cut in tiny particles. Cook slowly. Add one pound of sugar to one and one-half pounds of prunes. Simmer till thick and add three tablespoonfuls of chopped pecan meats.

Polychrome Conserve

One-half pound of dried peaches, one-half pound of apricots, one-half pound of prunes, one orange, one-half cupful seedless raisins, one-quarter cupful nut meats, one and one-half pounds of sugar. Press the dried fruits, which have been cooked in the usual way, through a sieve, add grated peel and juice of the orange, and the raisins chopped fine, nutmeats and sugar and simmer altogether until thick.

Amber Marmalade

One grapefruit, one orange and one lemon are required for the marmalade. Wash the fruit well and cut it in slices, removing all seeds. Run the fruit through the food chopper, using the coarse blade and save all the juice. Measure the fruit and juice and cover it with three times its quantity of water. Let it stand for twenty-four hours, then put on the fire and cook for twenty minutes. Let stand again till cool, then measure and allow a cup of sugar for each cup of fruit and juice. Mix well and let stand again for twenty-four hours, then bring slowly to the boiling point and simmer for three hours. This amount of fruit and sugar will make nine or ten glasses of delicious marmalade.

Sunshine Chips

Paré carrots and cut them into the thinnest wafer-like slices, and allow three-quarters of a pound of sugar to each pound of the vegetable; also half a cupful of lemon juice. Place the carrot slices in layers in a saucepan, sprinkling the layers with the sugar; pour the lemon juice over all and leave to marinate for twenty-four hours. Then add water just to cover, and drop in a few pieces of ginger root cut in slices. Simmer till the carrot slices are tender, then set aside to cool. After three or four days, drain the syrup from the vegetable and cook it slowly till very thick. Then arrange the carrots in sterilized jars, pour the hot syrup over them and seal when cool.

Prune and Date Jam

1 pound prunes
1 pound dates
1/4 cupful sugar
2 tablespoonfuls of lemon juice
2 tablespoonfuls of orange juice
Cook prunes until tender in a small amount of water. Remove stones and add dates, which have been stoned and chopped. Add lemon and orange juice and sugar. Cook the mixture until thick.

Dreaded Aches, PAINS Disappeared

"My health had been poor for ten years, before I took Cardui," says Mrs. Anna Cronin, of Rockport, Ind. "I was lifeless and 'no account'. I dragged around day after day, every move an effort, and never feeling the joy of being well.

"At times, I had a dreadful ache across my back, and my sides hurt me. I worried along, sometimes hardly able to leave my bed, but the demands of a growing family had to be attended to; so I would get up, do what was absolutely necessary, and then lie down again.

"One day, someone suggested Cardui to me. I took it for several months, and all the time I was growing stronger, and less nervous. My aches and pains finally disappeared.

"That was two years ago. My improvement has been permanent. The good health, which followed the taking of Cardui, is still with me, so I do not hesitate to recommend it to my friends."

FRUIT IN THE DIET

FRUITS for every meal and
 for all occasions, is the slogan
 of an enlightened age in
 which the value of a generous
 proportion of these foods in the
 daily diet is recognized by all
 food experts. The much-talked-of
 vitamin is present in large quan-
 tities, as well as other necessary
 properties, such as sugar, miner-
 al salts, fruit acids and pro-
 tein. All these elements so nec-
 essary to health place fruits, both
 fresh and canned, very high on the
 diet list.

Starting the day right with a
 preliminary fruit course has be-
 come as much of a rite as the
 subsequent fragrant cup of coffee.
 There is something undeniably
 soothing and salubrious about
 this particular way of breaking
 the fast, whether with the lowly
 prune, the more aristocratic ci-
 trus family, with berries or mel-
 ons in season, or with Hawaiian
 pineapple, which is available the
 whole year around.

Fruit Habit a Pleasant One

Human nature is often perverse
 where the healthful, wholesome
 thing is offered, but the fruit
 habit is an easy one to culti-
 vate and a pleasant one to pur-
 sue. Some fresh fruits are, of
 course obtainable all the year,
 but in the summer one is apt to
 crave it in large quantities to the
 exclusion of nearly all else on the
 daily menu. There is nothing that
 tempts the feeble appetite more
 during the heated term, as the
 canny housewife well knows. She
 has learned that she can intrigue
 her family most easily on warm
 days by subtle concoctions, fruity
 and wholesome, which are easily
 digested, are not heating, and are
 high in tonic properties. Indeed

fruit of any kind may very well
 be introduced into the family
 menu three times a day, with
 relish and benefit.

If one is an orange juice addict,
 preferring that in the morning be-
 cause "it is quick," try on alter-
 nate mornings Hawaiian pine-
 apple juice frappé. It will be
 found both refreshing and stimu-
 lating to the appetite. When
 there are guests for breakfast
 and something quite unusual and
 dressy is desired, this delicious
 grapefruit-pineapple combination
 is highly recommended: cut and
 prepare the grapefruit for serving
 in the usual way, removing the
 center stalk. Fill this hollow with
 crushed Hawaiian pineapple and
 chill before serving. It makes
 an excellent combination. Crushed
 pineapple alone is also a good
 breakfast dish. It may be chilled
 and served much the same as
 apple sauce. It is in fact a whole
 lot more tempting than apple
 sauce and infinitely easier.

Fruit in Every Course

It is possible to introduce fruit
 into every course of the meal in
 some delicious form. To start a
 summer luncheon the following
 fruit cup, which is invariably
 popular, may be served. Freeze
 a can of Hawaiian crushed pine-
 apple in a bucket containing three
 parts of ice to one of salt. Open
 the can around the side and slice
 the frozen contents, placing a
 slice in the bottom of each sher-
 bet glass. Next put on a layer
 of raspberries, followed by an-
 other layer of frozen pineapple
 and still another row of raspber-
 ries. Put a heaping teaspoon of
 orange marmalade over the top.
 Whip half pint of heavy cream
 until stiff. Add two tablespoons

of powdered sugar and some mar-
 aschino cherries chopped fine.
 Cover the tops of the glasses with
 the cream and serve as cold as
 possible.

For a meatless summer lunch-
 con, the following recipe is sug-
 gested to be used as a main
 course: take a rather large-sized
 egg plant and cut in two length-
 wise. Scoop out most of the
 pulp and soak in strong salt water
 one hour. Drain and boil until
 tender. Drain again thoroughly
 through a sieve and add one cup
 of bread crumbs, three quarters
 of a cup of crushed Hawaiian
 pineapple, two tablespoons but-
 ter, one half teaspoon grated nut-
 meg, a beaten egg and enough
 milk to make it the right consis-
 tency for stuffing. Mix thorough-
 ly and season with salt and pep-
 per. Pipe the shells of the egg
 plant, sprinkle inside with salt
 and pepper, and stuff with the
 mixture. Put buttered crumbs over
 the top, place in a deep pan with
 water reaching half way up the
 sides of the egg plant. Bake about
 an hour in a moderate oven, and
 brown the top under broiler.

For a Party Dessert

A dessert suggestion which has
 great party possibilities is the
 following: whip one pint cream,
 add one and one-half cups con-
 fectioner's sugar, one can crushed
 Hawaiian pineapple well drained.
 Soak two tablespoons gelatine in
 one-half cup cold water and melt
 it over hot water. Cool and add
 the juice of two lemons. Line an
 oblong mold with one and one-
 half dozen lady-fingers. Pour in
 the cream, and chill for 6
 to 8 hours. Turn out on a large
 platter, and surround with mar-
 aschino cherries.

Possible Seed Corn Shortage For 1928

Farmers who have not already done so should begin at once to select their seed corn for planting next spring. Due to the poor season, late planting and in some cases fertilization most corn in Smyth and adjoining counties has not sufficiently matured for seed.

Select Matured Seed Now.

Every farmer knows that much of the trouble with getting good stands of vigorous corn in the spring is due to the seed. He also knows that the best time for selecting this seed is in the field in the fall before the crop is harvested.

Seed selected should be stored in a dry well ventilated place so that it will dry out rapidly. Corn thoroughly dried can withstand the freezing temperature without injury to the germination.

Five Ring Circus Positively Coming

Ringling Bros. and Barnum & Bailey To Bring Sacred White Elephant And Other Big Features.

Yep, youngsters, it's really true!

Meaning that a rumor heard some time ago is now confirmed by the official announcement that the Ringling Bros. and Barnum & Bailey Combined Shows will positively exhibit at

BRISTOL, THURSDAY OCT. 13.

At that time the world's first and only five-ring circus will be within easy reach of local sawdust fans.

With it will come the only genuine white elephant ever brought to America. He is "Pawah," the world-famed sacred white pachyderm from Burma, who will be the foremost feature of a menagerie composed of more than a thousand animals.

The big show is now a third larger than it was, when it last visited this locality. Enormous new displays have been introduced such as ninety zebras, camels and horses performing at one time on a mammoth pedestal.

On a similar series of circular raised platforms thirty-two of the show's forty-three elephants dance, run and perform in unison with the topmost of the ponderous actors twenty feet above the ground.

Prior to this gigantic display five herds of elephants appear in the five separate rings. At another time the rings are given over to five companies of liberty horses.

At still another juncture of the program two hundred of the show's 900 horses, each ridden by an expert, are seen in the brilliant maneuvers.

Of the sixteen hundred people carried on tour this season more than eight hundred are the world's foremost aerialists, bareback riders, ground and lofty gymnasts, high-wire artists and super athletes.

These are now seen in extensive groups and troupes each display led by its particular champions, a new method of presentation that is in keeping with the Ringling Bros. and Barnum & Bailey 1927 plan of extending acts in equal number over the entire length of the mammoth main tent.

Little folks will be delighted to learn that the bringing of a score of European clowns to America has increased the fun-makers to more than a hundred.

THE TATTLER VOL I Thursday, Oct. 6, 1927 No. 15 Publish in the interest of Better Homes in Marion and vicinity by M. C. MORRIS. "Yes," said Burley Morris, "and time flies, sulphur springs, jam roll, grass slopes, music stands, moonlight walks, rubber tires and organ stops." "You can't know too much, but you can say too much," remarks "Silent Call."
